—There is an old negro living in Carrollton, relates the Bosworth, Mo., Star-Sentinel, who was taken ill several days ago, and called in a physician of his race to prescribe for him. But the old man did not seem to be getting any better, and finally a white physician was called. Soon after arriving Dr. S. felt the darkey's pulse for a moment and then examined his tongue. "Did your other doctor take your temperature?" he asked. "I don't know," he answered. "I don't know," he answered. "I don't know," he answered. "I don't know," he answered.

—The Holt County Independent Telephone Company is a new company recently incorporated in Mound City, under the laws of the State of Missouri. For several years the Mound City Electric Light and Power Company has been operating a telephone system, but the growth of the telephone business became so extensive that the directors considered it best to separate the business and make the telephone business a new corporation. This they did recently, and chose as their officers the following prominent and enterprising men: Joseph Shellenberger, president; E. E. Decker, secretary; C. F. Hamaker, treasurer; E. M. Miller, manager. The capital stock is \$21,000, paid up, and is divided into 420 shares of \$50 each, which will be divided among the stockholders on January 1, 1904. —The following are conditions given by a Missouri exchange by which farm hands can be retained: "Wages will be \$6 a day. Breakfast will be served in bed. Working hours will be from 10 a. m. to 2 p. m. All heavy work is to be done by the boss. Cigars furnished free. Any hand working the entire season can have the farm."

—By the accidental discharge of a shot gun in the hands of a brother, Jas. Taylor, aged about 17 years, was severely wounded Tuesday morning. The boys were fooling with the gun, when it was accidentally discharged, the shot entering all of the fingers on the left hand except the index finger. The first joint of each finger was so badly lacerated that the doctor in attendance amputated all the members at the first joint. From last accounts the young fellow was doing as well as could be expected under the circumstances.—Jeffersonian.

—If you are driving along the public road and meet a funeral procession, the proper thing to do is to turn out and take some good place by the side of the well beaten road and stop your team and remain quiet until the procession has passed. This is a courtesy that all should observe and practice. If you have a load of hay, or other products, or are only out driving, you should observe the above suggested politeness. Never enforce your right to half of the beaten track and compel a funeral procession to give half the smooth road. Always show this courtesy to the dead and the bereaved and you and the friends will be glad.

—Mail boxes along country roads intended for the convenience of patrons of the rural routes have always been regarded as good targets for rifle or revolver practice. However, Judge Phillips, in the United States circuit court, decided this morning that if a man wants to shoot such a box full of holes he must pay a fine of \$100 and costs. This was the court's ruling in the case of the United States against John D. Morris and Bird Barr, two young men who live in the country near Butler, Bates county. Before the federal grand jury finished its labors last night it voted indictments against them under the federal statutes making it an offense to mutilate or deface a mail box. When Major William Warner, United States district attorney, took up their cases in court this morning each defendant entered a plea of guilty. In proceeding along a country highway both were seized with a desire to shoot something and the mail box on a fence post near by furnished a good target; both proceeded to perforate it with bullet holes. The fine imposed upon these boys is intended in a measure as a warning to other persons possessed of the same desire to shoot in public places.—Mound City News, Nov. 4, 1903.

—An editor who died of starvation was being escorted to heaven by an angel who had been sent out for that purpose, says the Findlay, Ohio, Courier. "May I see the other place before we ascend to eternal happiness?" "Easily," said the angel. So they went below and skirminched around, taking in the sights. The angel lost sight of the editor and went around to hunt him up. He was found sitting by a furnace fanning himself and gazing with rapture on a lot of people in the fire. There was a sign on the fire which said: "Delinquent Subscribers." "Come, we must be going," said the angel. "You go," said the editor; "I'm not going. This is heaven enough for me."—Ex.

—Who in Holt county will win the \$50 in prizes offered by the World's Fair commissioners on corn? The show will be held at Oregon, Dec. 15, 1903. Every farmer in the county ought to interest himself in the matter of gathering exhibits and potify Henry Meyer, of Mound City, of having made a collection.

—This is the season of the year when the leaves are falling from the trees and people who take pride in cleanliness will gather them up and burn them. This certainly will be commendable, but it might do well not to do too much burning at night. It is an easy matter for a fire to be left before it dies and if wind springs up there is danger of a costly conflagration. Let the leaves and rubbish be burned during the day and the danger of fire will be greatly lessened.
